TESTIMONIALS

Got the package! Cues fit great in the new case.. Thank you for working with me on this. The 2x2 really works great and I look forward to using you first when I need anything else. I will also be sure to recommend Shooters to my friends needed accessories as well.

Thanks again

I love the cue and the speedy shipping after the order went through successfully. I have already told all my teammates that they should take a look at your web-site and need to order and support you all.

I recently purchased a cue from Shooters that was very difficult to get from the manufacturer for various reasons beyond the control of Shooters Billiards. Kathy from Shooters worked very closely with me in helping me get the cue I wanted. She went way beyond what normally would be expected of good customer service. Her extreme professionalism and honest and sincere efforts to provide exceptional customer service to her customers is greatly appreciated and rarely seen in today's fast paced world of electronic digital everything. The cue is great. Thank you again Kathy.

Ray
